

Personnel Lift Part

Personnel Lift Parts - The fold down work platform elevates personnel to shelving and overhead racks in a convenient and safe manner. While this accessory is not being utilized, the work platform can be folded down and afterward stored conveniently. It consists of a checker floor plate platform, a long chain, and a ratchet lock along with hook to attach the platform to the work truck. This platform is constructed of welded steel and similar to several different attachments, has the blue powder coat finish for durability.
