

## Clark Forklift Part

Clark Forklift Parts - At present, there are over 350,000 Clark lift trucks performing globally, and more than 250,000 in use in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual parts built for 20 distinctive models of lift trucks and automated equipment. Your regional Clark Seller is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark features a exceptional Parts Supply team. The parts warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Worldwide, Clark has one of the most impressive supplier support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing protection features such as the operator restraint system. This exceptional dedication to safety is currently a standard feature on every forklift.

Clark has a unyielding mission to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has selected the very economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and application of resources. This system was established to acknowledge the most successful approaches of manufacturing facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to perfect the efficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines modern product growth and provides superior consumer support and service within the industry.
