

Ingersoll Rand Forklift Parts

Ingersoll Rand Forklift Parts - Ingersoll Rand provides products, solutions and services so as to ensure efficiency and increase the productivity within commercial, residential and industrial surroundings. They pride themselves in providing products to be able to improve the safety, comfort, security and health of people around the globe through their four international segments.

From their Climate Solutions division comes a product line of energy efficient HVACR solutions. The Thermo King is the leading transport temperature control, while Hussman makes refrigeration and food merchandising solutions. Trane is a trusted provider of energy efficient heating ventilation and air conditioning systems, building and contracting services, parts support and advanced controls used for both residential homes and commercial buildings.

Ingersoll Rand's Industrial Technologies sector provides solutions and products which enhance their clients' operation, energy efficiency and productivity. The product range is diverse ranging from tools and pumps, fluid and material handling systems to complete compressed air systems. They have likewise developed Club Car, the worldwide leader in golf and utility vehicles designed for individuals and businesses.

Trade names like for instance Schlage and Trane deliver residential solutions that offer comfort, safety and efficiency to home owners around North America. Their innovative products include mechanical and electronic locks, indoor air quality solutions, heating and air conditioning systems, portable security systems, advanced controls and remote home management.

The sector comprising Security Technologies provides products that ensure productive, secure and safe environments. This division's market leading products include floor and door closers, exit devices, portable security devices, biometric and electronic access control systems, cabinet hardware, steel doors and frames and locks, locksets and decorative hardware. Schlage even has products that provide time, attendance and personal scheduling systems.
