

## TCM Forklift Part

TCM Forklift Parts - In the global industry of material handling, lift trucks play an important part for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in the U.S., forklifts gained popularity after WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread worldwide.

Originally established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. prior to becoming recognized as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first forklift. Through the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation with the trade. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly manufactures many models of industrial trucks with more than 50 years of accumulated expertise and technology, making their products used and recognized all over the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and intends to become a world-class leading business.
